

# 5 REASONS TO AVOID PALM OIL

## 1. DEFORESTATION

Natural forests are being illegally removed for Oil Palm plantations.

## 2. TIMBER

Natural forests are being targeted for their timber and value to Oil Palm plantations.

## 3. ANIMALS

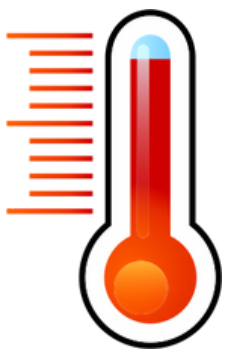

Loss of habitat is driving native animals to extinction. Don't let them survive only in Zoos.

## 4. POLLUTION

Burning of forests and refining of Oil Palm increases pollution, causing health affecting smog across SE Asia.

## 5. GLOBAL WARMING

The Oil Palm industry greenhouse gas emissions are high. Increasing climate change and extreme weather conditions
